Dear Mary,

I am glad to hear that you like your new school. However, one thing still worries me—you don't seem to use time well. School clubs are important to college students, but you still have to study hard.

I know you just joined a guitar club and need a guitar. Your father has a used guitar. He said you can have it. I will send it to you, and hope you will enjoy playing the guitar.

Mary, I know you will study well and also have a good college life. If there is anything interesting going on, please let me know. Take care.

Love,
Mom
